

EXAMPLE · CAPABILITY STATEMENT

Software and AI for industry

Who we are, what we build and how we work

WHAT WE DO

Systems your operation runs on

📘 Example document

This is an example to show the format. It is not a live document and not a client record.

We build the platform a company does not have yet: jobs, crews, equipment, compliance and reporting, in one system made for how the work is done.

01

Discovery

We map how the work is done today, on site and in the office.

02

Design and build

You watch it take shape, in milestones you can open.

03

Launch

It goes live, and keeps running without us in the room.

CAPABILITY

What we deliver

SERVICE	TYPICAL WORK
Custom software	Job, crew and equipment platforms, client portals
AI automation	Document reading, reporting, email and data entry
Websites	Company sites, service pages and enquiry flows
Documents	Capability statements, profiles, SOPs and registers
Entity	Cinova Pty Ltd
ABN	62 692 872 969
Based	Gladstone, Queensland
Web	cinova.com.au
